What? Money for your old china? Plus a discount on a Bauscher replacement? No, we haven't gone mad. You can now trade in your old china, regardless of age and brand, on some brand spanking new Bauscher "Maitre" *.

Bauscher has been producing superb quality hard porcelain in Germany for 125 years, and supplying the Australian market for over 100 years. Resistance to chipping is built in at the design level, as well as with the polishing and glazing of plate edges and cup rims. Resistance to cutting, no nooks and crannies for ease of cleaning, stackability, functionality and long term availability, are just some of the things that makes this chinaware the best of the best in hard porcelain.

With this new deal, as an example, you could get up to \$1,500 cash back for 100 settings. Terms and conditions do apply. Please contact us for details.

* The trade in is also available on all Bauscher ranges, but the special discount only applies to "Maitre".
