Room service problems?

- ✓ **Food not hot enough**
- ✓ **Trolleys too bulky or old**
- ✓ **Hot boxes taking up room**
- ✓ **Stairs to traverse**

We have the solutions
You have the choice . .

quality commercial

So easy. First, choose your delivery system . . .

System 1 Heated Meal Delivery System

Preheated non slip disc
goes under the plate.

Easy 3 step heated disc and charger system:

1. Preheat the non slip discs prior to service.
2. When a meal comes off the bain marie, take the preheated disc from the holding box and recharge in under a minute.
3. The disc sits on the tray or trolley and the plate is put on top.

Benefits

Hot food

The meal stays hot all the way to the room. Fantastic for distant kitchens.

Versatile

Or keep that second course hot while the first is being eaten.

Fast

Discs heat in under 1 minute for a reheat or under 4 minutes from cold.

Space Saving

No big hot boxes needed. System works brilliantly with trays - save trolley space.

Easy Transport

Since trolleys are optional, trays make it easy to deliver. Great for stairs.

System 2 Hot Box System (XL-53A)

Great space saver. Take out the hot boxes and you can fold and nest multiple trolleys.

The classic space saving trolley and hot box system. System comes with trolley and hot box. Hot boxes can also be purchased separately.

Benefits

- Value** Simply add extras to your current hot box system to conserve those dollars.
- Quantity** Holds multiple meals if that's what you need.
- Furniture** Provides a dining table in the room if in room space is at a premium.
- Space Saving** Trolley is a great space saver when you take the hot boxes out.

Then if you need, there's more trolley choice . . .
