Portable Nesting Buffet Table System

Ever wish you could

Pack it up

Go anywhere

Do anything?

The new Portable Nesting Buffet Table System from GIBPAT. With so much flexibility, you'll wonder how you managed without it.

The revolutionary new system that will fit you like a glove.

GIBPAT has never been one to just follow the crowd. We were the first to bring you mechanical cutlery polishing and glass polishing. We led the way in the induction revolution and are still number one in induction solutions. We've just introduced the Wunder-Bar Liquor Dispensing System to Australia, and now we're introducing another first. Our Portable Nesting Buffet Table System.

The GIBPAT difference brings you 'thinking outside the square', and ways to increase profits through new technology and innovation. Try our new table system on for size. We make to order. Just to suit you.
