## Buffet bling - oh so sexy!

We thought it high time we put this stunning range from Hepp in the eZine. It's actually been out for a little while already, but we haven't had a chance to show it off yet. The number of new products we've had to show you this year has been enormous.

With more than a hint of Art Deco about it, the Arte range from Hepp is truly unique. It seamlessly fits in with both modern and traditional settings. Sleek curves combine with square handles, legs or bases. Chafers are available in both stainless steel and silver plate:

Rectangle 1/1 Roll Top  
Round 30cm and 40cm Roll Top

## And beyond the buffet

This cloche is a definite office favourite. It comes in both round and the show stopping square (pictured), in both stainless steel and silver plate:

Dome cover in round: 12, 16, 21, 22.5, 24, 27cm  
Dome cover in square: 21.5x21.5cm

A selection of Arte pieces - more available.
