GIBPAT

Constant heat for your buffet

Induction Technology from Hepp

The brilliant modular system of Hepp's Induction Line brings buffet presentation to a new level.

- The compact design features a system of modules. Choose the number of hotplates to suit your needs.
- Specially built chafing dishes are functional as well as spectacular.
- Condensation drainage ensures the ultimate in food quality and presentation.
- Safer operation—no radiant heat. Only residual heat from the warm vessel.
